Body text

This website is intended to be visually pleasing and very easy to navigate for a first time visitor. I went for a minimalistic look that was supposed to fit the modern genre of websites. The home page is supposed to be an invitation that prompts greater insight into the website. I provided a visit us tab because I felt like it was necessary because most people do not like to spend much time browsing websites if they can easily get the information they need. The tabs are supposed to be general but provide visitors with what they need (menu, location, reviews).
